MACHINED DIRECT DRIVE BASS DRUM PEDAL

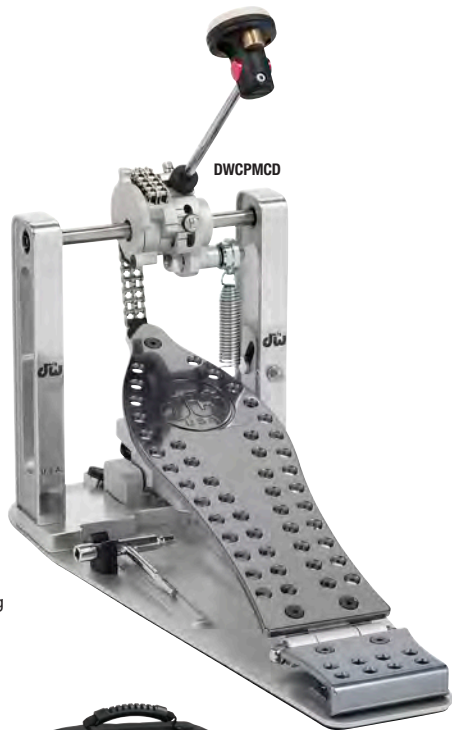

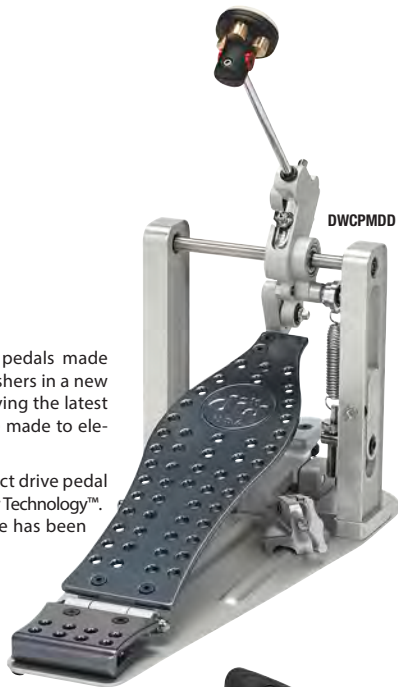

Introducing DW Manufacturing. Boutique, precisely-machined pedals made from aircraft-grade aluminum in California. DW Manufacturing ushers in a new era in Drum Workshop's illustrious pedal-making history. Employing the latest technology and the highest quality materials, these products are made to elevate the art of drumming even further.

The MDD® (Machined Direct Drive®) pedal is the first ever DW direct drive pedal and the only direct drive pedal on the market featuring Floating Rotor Technology™. The result is quick, smooth, responsive and yes, powerful. The game has been changed.

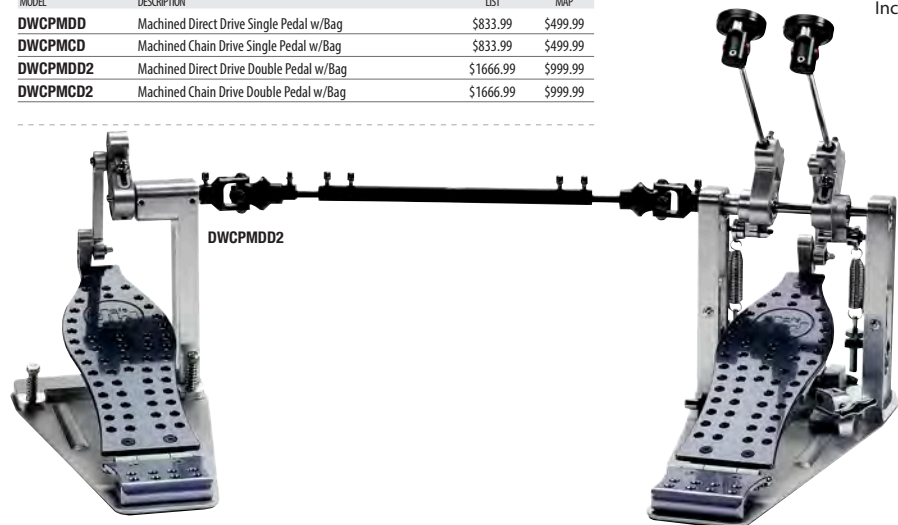

FEATURES:

- Optimized Fulcrum Geometry™ Linkage
- Solid Aluminum Direct Drive Cam
- Infinite Throw Adjustment
- 110 Control™ Weight/Impact Adjustable Beater
- Perforated Solid Aluminum Footboard
- Contoured Heel Plate with interlocking Delta™ Hinge
- Floating Rotor Drive System
- Tri-Pivot™ Swivel Toe Clamp
- Single Pedal Bag

9000 Series Bass Drum Pedal

The industry-standard, industry-leading line of 9000 Series hardware is our most popular. Heavy-duty steel constructions means it built to withstand the punishment that long tours can dish out, but it's a long list of patented innovative features that keeps drummers coming back.

9000 Series pedals are played by the world's top professionals for a reason; Floating Rotor technology makes then quick and responsive, while the Adjustable Cam makes them versatile enough for any musical environment. A groundbreaking design and DW quality has helped to make 9000 pedals our most sought after pedals today.

Features:

- Infinite Adjustable cam for easy adjustment
- Floating Swivel Spring increases efficiency on the down and return stroke.
- Easily converted from Nylon Strap to Chain Drive
- State-of-the-Art Ball Bearing Hinge
- Tri-Pivot Toe Clamp for easy hoop connection and protection
- All 9000 Pedals come with a Clip & Drum Key
- Single post casting on DW's double pedals for ease of movement
- Universal Assembly (with memory lock)
- Nylon Carry Case

DWCP9002

6000 Series Bass Drum Pedal

With sleek, retro styling and modern features, 6000 Series hardware is the perfect compliment to any Jazz, Classics or even rock set-up. A versatile aluminum flushed-base design can be locked flat or raised for easier placement around the kit. Some of today's most notable players swear by 6000 hardware because it's lightweight yet tough enough for touring.

For a matching set, choose the 6000 Series line of bass drum pedals. Modeled after the very first DW pedals ever produced in the early 70's and available in three drive systems, 6000 Series pedals feature a lightweight radius rod and single chain for a light, subtle feel.

Features:

- Infinite Adjustable cam for easy adjustment
- Floating Swivel Spring increases efficiency on the down and return stroke.
- Easily converted from Nylon Strap to Chain Drive
- State-of-the-Art Ball Bearing Hinge
- Tri-Pivot Toe Clamp for easy hoop connection and protection
- All 6000 Pedals come with a Clip & Drum Key
- Singly post casting on DW's double pedals for ease of movement
- Universal Assembly (with memory lock)
- Nylon Carry Case

5000 Series Bass Drum Pedal

AN INDUSTRY STANDARD GETS EVEN BETTER We've reengineered the pedal that established our reputation for innovation and quality. Because innovation is part of our DNA we thought it was time for some major improvements. Most notably, the toe clamp. The 5000 needed more gripping strength, providing a stronger connection between the drummer and kick drum. So, we developed the Tri-Pivot Toe Clamp. Three independent 360 degree, rotating rubber pads firmly pinch almost any diameter and thickness bass drum counter hoop from the top and the bottom, with zero slippage. Add to that a new textured rubber grip pad on the base plate and we think you'll agree that there's never been a better system for attaching a pedal to a bass drum. Last, but certainly not least, we wanted to improve on the smoothness and feel of the 5000, if that was even possible. To accomplish this, we added a Dual Bearing Spring Rocker, making the 5000 quicker and more responsive.

Featuring a host of refinements and upgrades, the legendary line of 5000 Series bass drum pedals still features a choice of drive systems, aluminum hex shafts, pedal plates and linkages, 101 two-way beater, and built in spurs. These pedals can be customized to fit the needs of any player.

The 5002 is also available in a "Lefty" version.

Features:

- Infinite Adjustable cam for easy adjustment
- Floating Swivel Spring increases efficiency on the down and return stroke.
- Easily converted from Nylon Strap to Chain Drive
- State-of-the-Art Ball Bearing Hinge
- Tri-Pivot Toe Clamp for easy hoop connection and protection
- All 9000 Pedals come with a Clip & Drum Key
- Singly post casting on DW's double pedals for ease of movement
- Universal Assembly (with memory lock)
- Nylon Carry Case

3000 SERIES BASS DRUM PEDAL

3000 Series pedals are designed for every drummer. Big on features like dual-chain Turbo drive, bearing rocker assembly, 101 2-way beater and heavy-duty all-metal construction and more, with a price tag that's in reach for more drummers. We think well-made pedals shouldn't just be for the pros, they should be for all drummers.

* Double Pedal is also available in a Lefty version (DWCP3002L)

WHICH DW HARDWARE SERIES IS RIGHT FOR YOU?

DW has several series to offer! From heavy-duty steel construction to standard medium weight hardware. Visit dwdrums.com for info.

9000 Series – Our most popular hardware. Heavy-duty steel constructions means it's built to withstand the punishment of long tours, but it's long list of patented, innovative features is what keeps drummers coming back. Plus, with optional factory accessories, 9000 Series hardware can be customized just the way you like.

7000 Series – Made especially for the working drummer; perfect for the weekend trap case. Includes all the features you'd expect from DW, but without the added weight. Lighter-gauge tubing and single-braced tripod legs are easier to carry, but without sacrificing sturdiness or strength.

6000 Series – Sleek, retro styling and modern features - the perfect compliment to any Jazz, Classics or even rock set-up. A versatile aluminum flushed-base design can be locked flat or raised for easier placement around the kit. Some of today's most notable players swear by 6000 hardware because it's lightweight, yet tough enough for touring.

5000 Series – A line of no-frills heavy-duty hardware created for every drummer, 5000 Series hardware simply gets the job done in the studio or on stage. Features like integrated memory locks, double-braced tripods and fine-toothed cymbal tilters make them sturdy and drummer-friendly.

3000 Series – A range of standard, medium weight hardware to suit varying musical styles. Light enough for the working drummer, but heavy-duty enough for heavy-hitters. DW quality and dependability at a price most drummers can afford.

MAYMICS
miking system

MAYMICS MIKING SYSTEM

DW is proud to offer the full line of MAY internal miking system products. Capture your sound from inside the drum; the origin of it's distinct tone. The MAY patented internal miking system provides maximum presence and isolation from ambience.

The mics can be permanently drilled into the shell or mounted via non-drill AVCs(audio vent connectors) that utilize the existing vent hole.

AUDIX D4BD

moon-mic
DYNAMIC MICROPHONE

The Moon Mic™ features a patented, curved housing and specially-selected diaphragm that delivers warm, accurate bass response. The revolutionary design captures the hard to retrieve resonant frequencies of any bass drum to create a complete tonal spectrum. It's not just another bass drum microphone, it's a Moon Mic™.

- PATENTED RADIUS HOUSING
- EXCELLENT FOR BASS DRUMS, FLOOR TOMS AND BASS CABINETS

- INCLUDED DW STAND AND MOUNTING BRACKET
- PERFECT FOR STUDIO OR LIVE APPLICATIONS

CAJONPORT™

The CajonPort™ delivers more depth, presence and precision – adding incredible enhanced low-end while simultaneously creating greater distinction between the Cajon’s bass and snare sounds. The result is a dramatically less boxy, more versatile and expressive instrument. Ready for a variety of new and exciting applications.

Harness the full dynamic potential of your Cajon!

KICKPORT® INTERNATIONAL

EXPERIENCE THE FULL DYNAMIC TONAL QUALITIES OF ALL OF YOUR DRUMS!

Join the 100,000 other drummers worldwide who are experiencing the improved feel, power and tonal qualities of any bass drum from the enhanced subsonic frequencies simply and easily. Instantly achieve a smoother, more focused natural overall sound with more impact from any bass drum – all sizes, brands, and materials.

Considered one of the most important “breakthrough” accessories in decades, and recognized through out the music industry as a “must have” innovation for drummers of all styles, the Patented Award-Winning KickPort® is an essential component to get the most from your bass drum sound in every genre of music. Whether behind the kit or out in the audience, you can hear the difference immediately!
